

Covid-19 Vaccination Program for Older Residents

Beginning April 27, 2021, the Township of West Caldwell will transport West Caldwell residents age 60 and older to get a COVID-19 vaccine from Essex County.

West Caldwell will use its Senior Transportation Bus to pick up residents at their homes and bring them to the Steven Aduato Sports Complex in Branch Brook Park. The senior bus will remain at the site and transport seniors back home once vaccinated.

Transportation will be offered on Tuesday and Thursday mornings.

The county will be administering the Moderna vaccine, which requires two doses. The second appointment will be scheduled at the time of your vaccination. We will be able to register 10 seniors for each day.

Call to register for the next available time slot

Caldwell Department of Human Services at 973-403-4623

Monday through Friday, between 10 a.m. and noon.

If you receive a voice message, please leave a message and your call will be returned.

Residents will be asked for their insurance information but if they do not have insurance, the cost of the vaccine will be covered by the federal government.
